Professional Summary

Computer Engineering student with hands-on Android and Flutter development experience, proficient in Java, Dart, and Firebase. Proven ability to contribute to real-world app development through internships, demonstrating strong analytical thinking, teamwork, and foundational knowledge in data analysis and cloud computing. Eager to build scalable software solutions.

Education

Smt. Kashibai Navale College of Engineering, Pune

Bachelor of Engineering (Computer Engineering)

Aug 2024 – Jun 2027

Gramin Technical & Management Campus, Nanded

Diploma in Computer Engineering

Aug 2021 – Jun 2024

Experience

Data Analytics Intern – Kasnet Technologies Pvt. Ltd., Pune

Jan 2026 – Feb 2026

- Performed data analysis and built interactive dashboards using Power BI and Azure, converting raw data into actionable insights.
- Supported IT projects through data-driven approaches, improving reporting, visualization, and decision-making processes.

Flutter Developer Intern – Dream Webies Pvt. Ltd., Nanded

Jun 2023 – Jul 2023

- Contributed to software development by analyzing problems, building practical solutions, and preparing technical reports and presentations.
- Gained hands-on experience with real-world workflows, teamwork, and effective communication in a professional environment.

Projects

Cyber-X

Nov 2023 – Apr 2024

- Designed and developed a multi-functional mobile application featuring spam call and message filtering, AI-powered chatbot assistance, emergency notifications with real-time location sharing, and intelligent contact management.
- Implemented a cloud-based architecture using Firebase services – Realtime Database/Firestore for data storage, Cloud Messaging for instant notifications, and Analytics for tracking user activity.
- Ensured real-time data processing, scalability, and reliable performance, with a clean, user-friendly interface refined through usability testing.

AgriNest

May 2025 – Jul 2025

- Developed a Flutter-based agricultural marketplace with separate Farmer and Admin modules for secure authentication, product management, shopping cart, and order processing.
- Implemented Firebase Authentication, Cloud Firestore, and Firebase Storage to enable real-time product management, cloud-based image storage, and seamless synchronization of application data.
- Built a responsive and scalable mobile application with real-time product listings, intuitive user interface, and efficient backend integration to support future feature expansion.

Skills

Flutter, Android, Java, Dart, Firebase, Git & GitHub

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900)

Apr 2026
