Professional Summary

Computer Engineering student with hands-on experience in software development, Flutter application development, and data analytics through internships and academic projects. Proficient in Java, Python, JavaScript, Dart, SQL, Flutter, Node.js, Firebase, and MongoDB. Experienced in developing web and mobile applications, integrating REST APIs, and working with cloud databases. Familiar with machine learning, data structures and algorithms, and Git/GitHub. Microsoft Azure Fundamentals certified, with strong problem-solving skills and a commitment to developing reliable, user-focused software solutions.

Education

Smt. Kashibai Navale College of Engineering, Pune
Bachelor of Engineering (Computer Engineering) Aug 2024 – Jun 2027

Gramin Technical & Management Campus, Nanded
Diploma in Computer Engineering Aug 2021 – Jun 2024

Experience

Data Analytics Intern – Kasnet Technologies Pvt. Ltd., Pune Jan 2026 – Feb 2026

- Performed data analysis and built interactive dashboards using Power BI and Azure, converting raw data into actionable insights.
- Supported IT projects through data-driven approaches, improving reporting, visualization, and decision-making processes.

Flutter Developer Intern – Dream Webies Pvt. Ltd., Nanded Jun 2023 – Jul 2023

- Contributed to software development by analyzing problems, building practical solutions, and preparing technical reports and presentations.
- Gained hands-on experience with real-world workflows, teamwork, and effective communication in a professional environment.

Projects

Cyber-X Nov 2023 – Apr 2024

- Designed and developed a multi-functional mobile application featuring spam call and message filtering, AI-powered chatbot assistance, emergency notifications with real-time location sharing, and intelligent contact management.
- Implemented a cloud-based architecture using Firebase services – Realtime Database/Firestore for data storage, Cloud Messaging for instant notifications, and Analytics for tracking user activity.
- Ensured real-time data processing, scalability, and reliable performance, with a clean, user-friendly interface refined through usability testing.

PlacementHub – ML Based Placement Management System Live Working

- Developed a web-based placement management system with dedicated portals for Students, TPOs, and Administrators using React.js, Node.js, Express.js, and MongoDB.
- Implemented role-based authentication, email verification, student approval workflows, placement drive management, and application tracking.
- Integrated an AI-powered resume analyzer using Python, FastAPI, and Scikit-learn to extract skills, evaluate resumes, and match candidate profiles with job requirements.
- Built REST APIs for student profiles, placement eligibility checks, drive management, and application processing.
- Deployed the frontend on Vercel and integrated the Python ML service hosted on Render.

Technical Skills

Languages: Java, Python, JavaScript, SQL, PHP
Web Technologies: HTML, CSS, React.js, Node.js, Express.js
Mobile Development: Flutter, Dart
Databases: MySQL, MongoDB, Firebase Firestore
Tools & Platforms: Git, GitHub, Microsoft Azure
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, DBMS, REST APIs

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900) Apr 2026
